

Mediasite recorders

RL440

- > Room-based presentation recorder for conference rooms, lecture halls and classrooms

ML440

- > Portable presentation recorder for conferences, trade shows or multi-location use

Features

Easy to use

- > One-touch recording
- > "Plug and present" design
- > Immediate Publish-to-Go on CD, USB device or file server

Real-time recording

- > All video, audio and visual aids recorded as presentations are given
- > Real-time synchronization of video and audio with presentation images
- > Rich media ready to share when presentation is done
- > Auto screen detection and indexing for thumbnail navigation
- > No pre-production work
- > High quality encoding from 56k to 2Mbps

Flexible recording interfaces

- > Complete set of analog and digital interfaces to capture any RGB/VGA source
- > Composite video and S-video feeds for encoding
- > Balanced and unbalanced audio inputs for high quality sound

Image capture

- Analog component (RGBHV) input
- > HDDB15 interface
- > Multi-sync operation
- > All standard VESA modes
- > Separate H/V, composite, sync on green
- > Up to 1600x1200x24bit capture - SXGA

Video capture

- > Analog video inputs
 - NTSC, PAL formats
 - Composite BNC/RCA
 - S-Video (Y/C)
- > Digital video inputs
 - IEEE 1394 DV (6-pin connector)
 - USB

Audio capture

- > Analog (stereo)
 - 2 x balanced (XLR)
 - 2 x unbalanced (RCA)
- > Secondary audio
 - Line in - unbalanced 1/8" TRS (stereo)
 - Mic in - unbalanced 1/8" TS (mono)
 - Line out - unbalanced 1/8" TRS (stereo)
- > Digital audio inputs (embedded)
 - IEEE1394 DV
 - USB

Presentation editing

- > Crop video/replace video file
- > Add, delete and replace presentation slides
- > Adjust slide timings
- > Add new images from clipboard
- > Cut/paste slides between multiple presentations
- > Author a new presentation by combining pre-recorded video and images

Remote Recorder Control (requires EX Server)

- > Convenient web access to Recorder operations from anywhere
- > Remotely:
 - Start/stop recording
 - Control Recorder settings/options
 - Publish recorded presentations to Mediasite Server
 - Delete presentations

RL440

ML440

Where to use

- > Presentation facilities like conference and training rooms, lecture halls, auditoriums, classrooms

- > Off-site events, conferences, trade shows, multiple venues within your organization

Unique features

- > Fully automated recording directly from familiar room automation touch panels
- > Mediasite Control Interface Protocol (MCIP) for advanced room automation
- > Supports integration with Crestron®, AMX™ and Mediatech room control systems

- > Built for portability and rapid setup
- > Storage for continuous recording of a full day's event
- > Large, bright high-resolution display with wide viewing angle suitable for all lighting
- > Rugged design with high-impact carrying case

Design and dimensions

- > Rack mountable to standard 19" rack
- > Microsoft Windows XP Embedded
- > Intel-based processor
- > 120 GB hard drive (store 1000 hours of content)
- > IEEE1394 & USB interfaces
- > Ethernet interface (10/100/1000)
- > Dimensions: 16.75"(w) x 7"(h) x 15.5" (d)
- > Weight: 25 lbs

- > Integrated 17" backlit LCD 1280 x 1024 display, AGP graphics and speakers
- > Portable keyboard and mini mouse
- > Microsoft Windows XP Embedded
- > Intel-based processor
- > 120 GB hard drive (store 1000 hours of content)
- > IEEE1394 & USB interfaces
- > Ethernet interface (10/100/1000)
- > Dimensions: 18.7"(w) x 13.8"(h) x 6.1"(d)
- > Weight: 22 lbs
